

Soacha Cundinamarca - Colombia, November 5th 2020

To : INTECPLAST S.A.S. Customers
Subject : Certification ISO 15378:2017 replaces Certification ISO 9001:2015

Dear Customer

In the way of continuous improvement of our processes and products, the company established in 2002, its Quality Management System (ISO 9001); during these 18 years our System has demonstrated an important level of maturity which has been satisfactorily evaluated in annual audits of the first, second and third part.

In 2013, the company incorporated the ISO 15378 certification into its Management System which, in addition to including the requirements of the ISO 9001 standard, adds to each section the requirements of Good Manufacturing Practices (GMP) for primary packaging materials oriented to the Pharmaceutical sector.

Norma	Version	Description
ISO 15378	2017	Primary packaging materials for medicinal products. Particular requirements for the application of ISO 9001:2015, with reference to good manufacturing practice (GMP).

The company has decided to give continuity to its Management System only under the international standard ISO 15378 version 2017, which is applied in all our production processes, in this way we give our clients added value by guaranteeing that our processes are oriented to the continuous improvement and they are evaluated under quality standards and GMP.

You can check the validity of our certification on the SGS website:

<https://www.sgs.com/en/certified-clients-and-products/certified-client-directory>

Searching in the directory with the certificate ID: CO13/5574 or by company such as: INTECPLAST and in Location: Colombia.

We remain committed to our higher purpose: **IMPROVE QUALITY OF LIFE WITH SUCCESSFUL AND SUSTAINABLE PACKAGING**; ensuring the satisfaction of our customers through the quality and continuous improvement of our products and processes.

Cordially,

José Alejandro Arango Mejía
General Manager

Juan Carlos Munévar Beltrán
Continuous Improvement Manager
